

Antibiotic-Resistant Bacteria

Are you a carrier of a **resistant bacteria**?

In the last 2 months, have you:

- been treated in a **foreign care institution**?
- stayed in a **Dutch care institution** where MRSA / ARB prevailed?

- been a resident in a centre for **asylum seekers**?

Have you had any contact with commercially kept **pigs, veal calves or broiler chickens**, or are you living on a farm with pigs, veal calves or broiler chickens?

Are you a **room-mate, partner or caretaker** of an MRSA-positive person?

If so, please report this to the frontdesk of your practitioner's.
You could be a carrier of a resistant bacterium
Help us keep the care sector safe!
